Carl Bardwell has completed work on the map of the cemetery and has declined to take any compensation for his work. We wish to thank him for his generosity.

We have a contract with Willard Archibald for \$400 for removing the wall between the new and old cemetery and the apple trees and brush, also plowing the area. He wasn't able to complete this work before freezing so that we made a partial payment.

Respectfully submitted,  
WINTHROP B. WOOD,  
Treasurer.

## DALAND MEMORIAL LIBRARY

Although we have not added quite as many books in 1951 as last year, we have acquired over 100 new books, which with the restriction on adult fiction from the Bookmobile being somewhat lessened, has made available a reasonable amount of literature for the reading public of Mont Vernon.

The purchase of new books has been made possible by \$50.00 from the Daland Book Fund and from what is left from the inadequate town appropriation after other expenses are taken care of.

Therefore, we are deeply grateful to the following persons for their donations to our shelves: Mrs. Lucia Auryansen, Miss Annie Foster, Mrs. Helen Moore, Mrs. Orie Raymond Bailey, Mrs. Von Weber, Winthrop B. Wood, the Stearns heirs, Mrs. Rene Feys, Miss Jane Conant, Phyllis Carey, Mrs. Bessie Wood, Mrs. Gladys Goodwin and two books given in memory of Mrs. Helen Stearns by Miss Ethel Putnam of Ponemah.

Mrs. Bailey generously augments our list of magazines with the National Geographic, which is greatly enjoyed.

The attractive little Troubadour will be missed, as its publication has been discontinued.

On October 23, the librarian with Mrs. Ross and Mrs. Goodwin attended the Neighborhood Library Meeting at the Wadleigh Memorial Library in Milford, and enjoyed the hospitality and excellent program provided. Fine weather made it possible for a large number of libraries in this section to be represented, and many helpful and interesting suggestions were exchanged. Book reviews of children's and adult books were of interest to all, and an informative talk on Occupational Therapy by Mrs. Olsen of Lyndeborough added much to the general information and enjoyment of a very profitable day.

In 1952, may we be able to give greater service to

those interested in using the facilities which your library has to offer.

Respectfully submitted,  
 RUTH S. ENDREJAT,  
 Librarian.

## ADMINISTRATION

### Instruction

Since our last report, there have been no changes in the teaching staff. Mrs. O'Neil and Mrs. Scully continue their work in the two rooms.

In connection with instruction, I wish to call attention to the new set-up with the Souhegan Nursing Association. I feel that we are getting more for our money than we ever did. Our arrangement with the nursing group calls for the assignment of one nurse to do only school work and have other nursing assistance in times of need. This applies to all the towns of this School Union. Up to the present, the arrangement has given good results and promises still better as we get acquainted with the needs and find how much can be done. The nurse is often a teacher, she visits homes and advises, she works with teachers and pupils, she is the center of the Health Program. Her duties are manifold — visiting, examinations, follow-up work, keeping records, first aid. The nurse maintains a liaison service between the school, home and community. She has to call upon many local agencies to meet the health needs of children. I feel satisfied that we are accomplishing most of the aims we set out to reach.

Workshops for teachers are of proven value in improving the quality of instruction. The last Workshop we held in September of this school year was by far the best we have had. The subject was Conservation and the quality of the leadership excellent. The teachers learned so many practical ways of teaching Conservation and now we see pupils doing many of these things. The follow-up is good and the pupils are profiting from it. When spring comes and nature begins to unfold, I am sure we will see more evidences of Conservation teaching. Another feature of this last Workshop was the fact that it was started, arranged

and carried through by a teachers' committee composed largely of interested ones who attended last summer's workshop at Lost River.

The Souhegan National Bank, in one of its paid ads, paid splendid tribute to our teachers as "builders of tomorrow's America." Other organizations and companies join in such tributes. We read their words in magazines and special articles. We appreciate these kind words.

Since tuition rates are developed from these figures, you can ascertain how near or how far you are from State figures. Of course, small enrollments and relatively high costs produce higher averages than the State.

### Needs

Since the building was made ready for use, nothing has been done to refinish the floors. They should be sanded and made ready for a floor seal and wax.

I haven't given up on Art. We would like to obtain the services of an Art teacher for one day a week. But that is the difficulty — these teachers seem to be employed full-time already. We were disappointed in two instances last summer and in early fall. As a substitute, some of the teachers took a special Art Course this fall and have but recently had an exhibit showing their

own work as well as work done by their pupils. This has filled the gap very capably. I hope we may have better success in obtaining part-time Art instruction for next year.

### The Teacher's Job

A rather exhaustive survey of teachers' time has recently been completed. The report indicates that elementary teachers average 11.9 hours per week in out-of-class instructional duties, 28.3 hours in class instruction and 7.7 hours in miscellaneous duties. Secondary teachers average 13.0 hours, 23.1 hours and 11.9 hours for the same three activities. The totals are 47.9 hours for the elementary teacher and 48.0 hours for the secondary. Of course these results are averages, there being many teachers who work more and some less. It is interesting to note that a 48 hour week for 43 weeks is approximately the same as a 40 hour week for 52 weeks.

Certain criticisms of teachers and education come to mind, that the 3 R's are not being taught. This is no new criticism. In my time it has not been uncommon to pick up a paper and read editorially that children cannot read, write, spell and do figures like they used to twenty years ago. Probably this has occurred once every five years or so in the years since I grew up. But the children of today can do better than those of a past generation. The evidence is very plentiful and conclusive. Probably the best one I know concerns an experiment of giving to Wellesley Junior High pupils of today the same tests given in 1886 to same grade children in Springfield. The latter averaged 29% when they took them 65 years ago while Wellesley pupils averaged 68%. To be sure many children get to high school without full skills in the fundamentals. But the explanation of this lack is not in the teaching but rather in the great change which has occurred in America relative to school attendance. When I went

to high school, only a few attended. Those who couldn't keep up with the fundamentals dropped out. Now almost all the children attend. In 1870 we had 80,000 high students in America, now we have over seven million. The great differences in ability, background and ambitions of all these children of all the people is now very marked. But all this merely points to the teacher's task. We have an alert staff that is trying to meet the needs of every child.

Kiplinger in a recent issue gives some good advice. Teachers want your friendship, your understanding and your help. So, why don't you visit them, get acquainted, find out their problems and not explode because they teach your child by a different method than you were taught, help in some of the projects? I feel sure you will find the results worth your effort.

### Appreciation

Again I am grateful to the staff, to the Board and to you citizens for another year of accomplishment. The general cooperation has been good and I appreciate it.

Respectfully,  
HAROLD C. BOWLEY,  
Superintendent of Schools.

Vital Statistics of a town are one of its most important records. If everyone would fully and correctly fill out the records of their own families on Marriage, Birth and Death certificates, the records of this town would be more accurately maintained for future reference.

I hereby certify that the foregoing returns are correct according to the best of my knowledge and belief.

GEORGE D. KITTREDGE, Town Clerk.
